TECHNICAL COMPLETENESS FOR POST CLOSURE PERMIT APPLICATION,
PROCESS WATER POND, CONOCO PHILLIPS LOS ANGELES REFINERY, CARSON
PLANT, CALIFORNIA (EPA ID NUMBER CAD 980881676)

Dear Ms. Wisdom:

The Department of Toxic Substances Control (DTSC) has completed the technical review of the revised Post Closure Permit Application dated May 2006 with additional revisions dated April and June 2007 for the closed Process Water Pond (PWP) at ConocoPhillips Los Angeles Refinery Carson Plant at 1520 East Sepulveda Boulevard, Carson, California.

DTSC considers the Post Closure Permit Application listed above to be technically complete. DTSC will be proposing to approve the post closure permit application and a California Environmental Quality Act (CEQA) Notice of Exemption. These documents will be made available for public review and comment during the forty-five day comment period. DTSC will also hold a public meeting prior to the issuance of a final permit decision. If DTSC determines that additional information is needed to clarify, modify or supplement previously submitted material, DTSC reserves the right to require this information from the ConocoPhillips Company. You will receive soon a notice of public comment period and public meeting for the draft permit.

Thank you for your cooperation. If you have any questions regarding this letter, please contact Mike Eshaghian at (818) 551-2926.

Sincerely,

Original Signed

Ray Reclerc, Leader
Permit Renewal Team
Hazardous Waste Management Program
